

January 30, 2018,

Good Afternoon Spencer Families,

The Brighton Area Schools Administration was informed earlier today that the possible case of mumps was deemed negative by the county health department after further testing. We are sending this letter again to confirm that there is no confirmed case of mumps.

Thank you for your patience and understanding while we worked through this situation. We always want take the most cautious approach when it comes to the health and safety of everyone in and out of our buildings. Constant and consistent communication is always our goal and while this was a false alarm it allowed us to test our systems in place.

Thanks again for your consideration and if you should have further questions please feel free to let us know.

Sincerely,

Bill Renner, Spencer Elementary Principal

Dr. Greg Gray, Superintendent of Brighton Area Schools

Wendy Plave, District Nurse
